

IBM CLOUD SERVICES

Step 1:

The IBM Cloud platform combines platform as a service (PaaS) with infrastructure as a service (IaaS) to provide an integrated experience. The platform scales and supports both small development teams and organizations, and large enterprise businesses.

IBM cloud account has been created.

Step 2:

It gives free trial of days to work on cloud. IBM Cloud for Education provides comprehensive cloud-based infrastructure and services to move the client's academic and research lab compute environment to cloud.
